

ELECTRIC BARREL PUMP FP60

CHARACTERISTICS

- The FP60 barrel pump empties barrels, canisters and tanks within a very short time.
- It is suitable for various liquids such as water, diesel and hydraulic oil, as well as motor oil.
- The compact design and low weight allow fast and ergonomic handling.
- The long pipe can be used to pump out drums with a depth of up to 36.22".

GENERAL

Type	Unit	Value
Model		FP60
Length	"	45.28
Width	"	3.94
Height	"	9.84
Length Tube	"	36.22
Length Hose	"	78.74
Length Cable	"	59.06
Weight	lbs	6.15
Tube Diameter	"	1.69
Hose Diameter	"	1.34
Diameter Hose Connection	"	0.79 - 1.26
Material Pumping Unit		Steel / Copper
Hose Material		Steel Wire reinforced PVC
Material Tube		Aluminium
Current Voltage	V	110
Rated Power	W	880
Mains Frequency	Hz	60
Pump Power	gal/min	15.85
Synchronous Speed	rpm	5,000 - 10,000
