

## STEEL STRAPPING

### CHARACTERISTICS

- This steel strapping convinces with its extreme tensile strength
- Meets even the toughest shipping conditions with ease
- Ideal for strapping particularly heavy or sharp-edged goods
- Strapping dimensions are compatible with standard strapping tools and dispensers
- Extremely resistant to mechanical stresses

Type	Unit	Value
Material		Steel
Execution		Roll
Length	m	400
Width	mm	16
Thickness	mm	0.5
Weight	kg	25
Tear strength	N	5200
