

STAINLESS STEEL HAND PALLET TRUCK

CHARACTERISTICS

- The hand pallet truck is made of stainless steel and equipped with nylon wheels
- It is optimally suitable for medical areas and food industry
- The stainless steel material is particularly hygienic
- The stainless steel trolley is designed to be very durable and heat resistant
- The smooth-running rollers overcome smaller obstacles without any problems

Type	Unit	Value
Brand		SolidHub
Traction weight	kg	2500
Lifting height	mm	200
Total weight	kg	68
Load center	mm	550
Wheelbase	mm	1180
Carriage material		Stainless steel

Type	Unit	Value
Drawbar height	mm	1210
Fork height, lowered	mm	85
Total length	mm	1550
Fork length	mm	1150
Length to fork face	mm	400
Overall width	mm	550
Fork width	mm	160
Min. turning radius	mm	1459

Type	Unit	Value
Wheel material		Nylon
Diameter of swivel castors	mm	180
Diameter of bearing rollers	mm	70
Track width, load rollers	mm	400
Steering type		Mechanical steering
