

ELECTRIC WINCH SW1000

CHARACTERISTICS

- The 2.2 kW electric motor enables fast retraction of the robust carbon steel rope.
- The compact dimensions and the many prefabricated mounting holes of the cable winch ensure uncomplicated mounting on various surfaces.
- The IP40 protection class promises to prevent ingress of foreign bodies >1 mm.
- With 220 V input voltage and 50 Hz frequency, the EU plug is easy to connect.

GENERALLY

Type	Unit	Value
Width	mm	380
Depth	mm	335
Height	mm	270
Dead weight	kg	40
Chain diameter	mm	6
Chain length	m	30
Chain material		Carbon steel
Housing material		Aluminum
Cable length	mm	450
Cable length to control unit	mm	930

ENGINE

Type	Unit	Value
Max. Load	kg	1000
Motor speed	U/min	2800
Motor power	kW	2.2
Feeding speed	m/min	12
Protection class		IP40
Brake		Magnetic particle brake
Power supply	V	220
