

ASSEMBLY INSTRUCTIONS

Dome mirror

Please read this manual before using the product and follow the instructions it contains!

SCOPE OF DELIVERY

1 x Dome mirror, Ø 31.5"

1 x Mounting kit: 4 x dowels, 4 x screws, 4 x chains (39.37"), 4 x eyebolts, nuts & cap nuts, 4 x small S-hooks, 1 x large S-hook

WALL MOUNTING

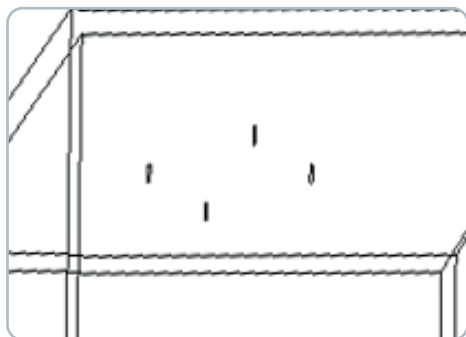

Figure 1

STEP 1:

Drill four holes in the ceiling. Make sure they are the right size and the right distance apart (approx. 22.28") (figure 1). Then fix the four dowels in the drilled holes.

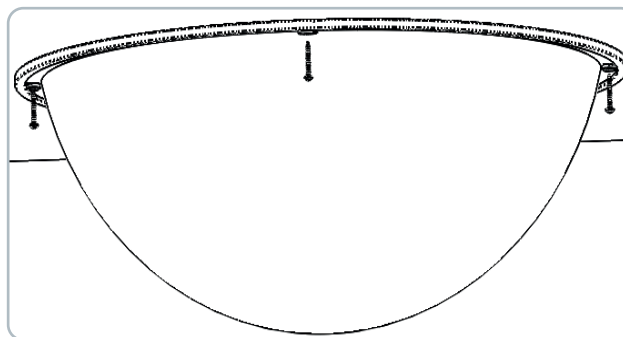

Figure 2

STEP 2:

Hold the mirror to the ceiling, place the M4 screws in the holes provided and screw them tight (figure 2).

ATTACHING THE CHAINS

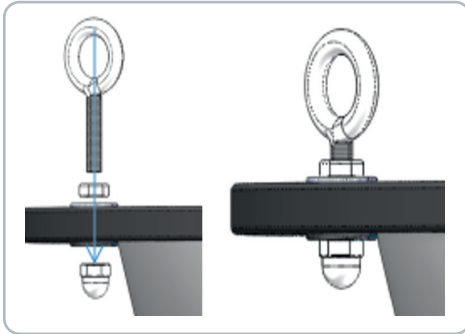

Figure 3

STEP 1:

Attach the eyebolts to the four openings provided on the dome mirror. Screw the nuts tight and attach the cap nuts on the other side (figure 3).

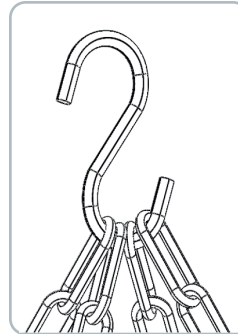

Figure 4

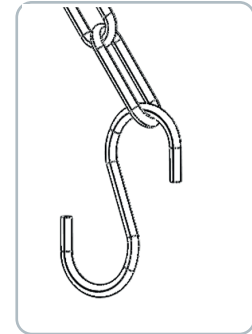

Figure 5

STEP 2:

Hang the large S-hook in the place you have intended (note here that the object to which you want to attach the panoramic mirror can bear its weight). Now hang the four chains on the S-hook (figure 4) and attach a small S-hook to each end (figure 5).

STEP 3:

Connect the small S-hooks to the eyebolts of the dome mirror. Now you can hang up your panoramic mirror. For safety reasons, we recommend attaching the mirror in pairs, with one person supporting the mirror and the other attaching the hooks. This prevents damage to the mirror when hanging it up. Once the mirror has been hung securely, you can remove the protective film from the mirror.

Notes

The mirror is protected by a thin foil. This prevents damage during installation. Please remove the foil as soon as the mirror has been installed. For regular cleaning, please note that the mirror should be cleaned carefully with a damp and soft cloth. Dry it afterwards with a soft cloth. Make sure that the mirror does not come into contact with ammonia or other corrosive / reactive substances.
