

MANOEUVRING AID GRH100

CHARACTERISTICS

- A safety chain prevents slipping off the forks
- Robust steel construction with 190 x 90 mm fork pockets
- Easy and quick maneuverability and control of the trailer
- Precise guidance minimizes the risk of accidents and damage

Type	Unit	Value
Model		GRH100
Total weight	kg	24
Dimensions	mm	560 x 400 x 170
Load capacity	kg	100
Clutch pull force	kg	1588
Colour		Blue
Surface		Painted
Material		Steel
Material thickness	mm	5
Dimensions forklift pockets	mm	190 x 90
Distance between forklift pockets	mm	150
Diameter coupling ball	mm	50
Height coupling ball	mm	70
Chain length	m	1.8
